

# STAINLESS STEEL ULTRA HEAVY DUTY ANGLES

Compliant with the requirements of AS1684 and AS1720.

## APPLICATION

Commonly used to joint timbers at right angles. This bracket can also be used for stairs or as heavy duty support brackets.

## SPECIFICATION

VUETRADE Ultra Heavy Duty Angles are manufactured from 2mm thick stainless steel 304 plate bent at 90° to suit a wide range of applications. The SS304 material provides excellent corrosion protection to accommodate for application where higher risk of corrosion is present.

## PRODUCT SIZES

Product Code	Dimensions (mm)	Box Quantity
VTUHDA4040	40 x 40 x 230 x 2.0	40
